

COMMITTEE REPORT and GENERAL NEWS

Well folks back at it for 2020. Few tweaks to the committee but essentially the same core, all good.

Pirtek SuperNight

A special meeting was called for last Tuesday Feb 17th to review the costing etc for the 2019 Pirtek SuperNight.

The committee agreed that the event was not a burden to the club and therefore provided that the sanction fees are not increased and the contract is sound we will recommend that the club accepts the upcoming offer.

Our immediate past 2019 secretary who was instrumental in the 2019 negotiations is the club contact for V8 supercars again for this year, many thanks for stepping up Randle.

The Committee plan to meet again Wednesday March 11, at which time we can hopefully conclude the contract.

To reduce the burden on the likely entry fee the committee will be making an extra effort to attract some serious sponsorship to defray this cost.

We are also proposing to Motorsports Australia that in addition to increasing the grid density for this event we are asking for dispensation to carry additional multiple sponsor signage so again we can reduce the individual entry cost, thus attracting additional competitors, greater sponsor exposure.

WA Season

We have prepared a 2020 Calendar listing all the Motorsports Australia championship rounds as well as regularity events that cater for Historic Touring Cars. This is now on our website. <http://www.wahistorictouringcars.com.au/wp-content/uploads/2020/02/Calendar.pdf>

The first event is a two day meet, Feb 29 – Mar 01 and is a State Champ round. Wanneroo Raceway

AHTCA

The old AHTCA has done a Lazarus and is active again. Still yet to state it's mission but all state clubs have a representation. Martin Dennis is ours. Hopefully they can be of help with parts substitution, reliability enhancement arguments with Motorsports Australia and perhaps even become a series co-ordinator so all the major events don't occur over a short span. Contact Martin with issues / suggestions etc.

Group ND

This is just a handle for all interested people and parties with positive and negative thoughts on extending Group N. There is a very well managed Face Book page available for those who wish to participate. Obvious job for the AHTCA, methinks.

Home Base

Some unfinished business from 2019 was to find and establish a 'Home' for the WAHTC. Bar, couple of hoists, spare part depository, club room etc. Well there is some light in as much as there is an unused public building in Midland that just may be available, more later.

Member Profiles

In addition to having the public photograph of your car on our web page, Bren, as in slow black Cortina, is going to drive you all crazy until you prepare a profile of you and your ride/s for our web page and for Vaughn to refer to when he is calling the shots.

Gillie 'n Boots – Photography

Our erstwhile friend and ally Gillie will be in attendance at Round 1 to take care of any requirements you may have. Many thanks for their tireless work.
